

YASHAN GUNAWARDHANA

FULL-STACK & AI ML SOFTWARE ENGINEER

+94 74 070 1613 | yashanydmdinusha@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio](#)

SUMMARY

A detail-oriented and passionate Software Engineer specializing in Full-Stack Web Development and Artificial Intelligence. Experienced in crafting highly interactive user experiences, including 3D web visualizations and precise, user-centric UI designs. Highly driven to combine modern software engineering with AI solutions to solve complex, real-world industry challenges.

PROJECT EXPERIENCE

UniPortal - Advanced Face Recognition Attendance System

- Developed a dual-stack application utilizing React 18 for the frontend and FastAPI (Python) for the backend.
- Engineered a biometric pipeline with 90% accuracy using FaceNet, OpenCV, and Dlib for high-precision student identification.
- Integrated Groq API (Llama 3.1) to create a context-aware AI support assistant for user queries.
- Utilized NVIDIA CUDA and cuDNN to accelerate facial recognition inference speeds to under 20ms

Furnisy - 3D Furniture Room Designer Store

- Built a modern e-commerce platform featuring an interactive 3D Room Designer using React.js, Vite, and React Three Fiber.
- Implemented secure user authentication and database management utilizing Firebase (Auth and Firestore).
- Developed an administrative dashboard to track real-time revenue and orders using ApexCharts

NexaMart E-Commerce Platform

- Developed a full-stack e-commerce Web Application utilizing MongoDB, Express.js, React.js, and Node.js.
- Integrated secure payment processing using Stripe and utilized Cloudinary for product image storage.
- Implemented a robust authentication system using JSON Web Tokens (JWT) and Google Auth.

Food Delivery App UI

- Designed and developed a comprehensive mobile application UI using Flutter and Dart.
- Created interactive features including an integrated map UI for address selection and a custom payment method modal.

Medi Core Pharmacy Management System

- Developed a desktop software solution for pharmacy operations using C# Windows Forms (WinForms) and SQL Server.
- Automated key processes including inventory management, real-time sales calculations, and expiry date alerts.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, TypeScript, Dart, C#, MATLAB, Java
- **Frontend:** React.js, Tailwind CSS, Flutter, Material UI, Three.js (React Three Fiber)
- **Backend & APIs:** Node.js, Express.js, FastAPI
- **Databases:** PostgreSQL, MongoDB (Atlas), Firebase, SQL Server
- **AI & Machine Learning:** OpenCV, FaceNet, Dlib, NVIDIA CUDA, Groq AI, Pandas
- **Tools:** Git, GitHub, Stripe Integration, Cloudinary, Figma, Postman

EDUCATION

BSc (Hons) in Computer Science | NSBM Green University (2023 - 2026)

- Sponsored by Plymouth University (UK).
- Currently in Final Year completing major software development projects and research

CERTIFICATIONS & TRAINING

- Intro to Programming / Intro to Machine Learning | Kaggle (May 2026)
- DYNALAB: The MATLAB Workshop | Mathematics and Statistics Circle, NSBM Green University (Sept 2025)
- Industry Preparation Training Programme 2025 | Faculty of Computing, NSBM Green University (July - Aug 2025)
- Diploma in Microsoft Office (Distinction) | IT House Computer Institute (Aug 2022)

SOFT SKILLS

- Problem-Solving & Analytical Thinking
- Agile Methodologies & Team Collaboration
- Effective Time Management
- Continuous Learning & Adaptability

LANGUAGES

- English (Professional Working Proficiency)
- Sinhala (Native)
